## FRENCH PILE UP DEAD TO FORM A BARRICADE

BERLIN SAYS GREATEST BAT-

WEEK

## FRENCH FORCE AHEAD AND CAPTURE A TOWN

ENTENTE GRAB GREEK  
NAVY AND PUT VELLED  
CREWS ON ALL SHIPS

(By Associated Press.)  
(BULLETIN.)

Paris, Oct 17.—French and German aeroplanes fought sixty-five engagements yesterday on the Somme. It is announced that five German machines were destroyed.

Berlin, Oct 17.—Detailed reports of the fighting on the Somme show that the attacks of October 9th to 13th may be reckoned among the greatest actions of the whole battle, says an Overseas News report. Whole columns of French and British were literally mowed down by German fire. In places where the fighting was most severe, corpses were used as barricades and were piled high. This was particularly true before St Pierre Vaast.

### Allies Grab Greek Navy.

London, Oct 17.—The Entente has taken over the Greek battleship Kilkis, former United States battleship Idaho, formerly by the Mississippi, and Averoff, says a dispatch. Allied crews were put on board, the Greek crews being sent to Athens.

The Allies took over the entire Greek Fleet on October 14th, except those three. It was explained unofficially that this measure was designed to insure the safety of the Allied fleets.

### French Forge Ahead.

Paris, Oct 17.—The French have captured another group of houses in Soissons and Sallier on the Somme. It is announced. All German counter-attacks being repulsed.

Violent artillery fighting is in progress in Macedonia. The Serbs yesterday, in the region of Cetina checked a Bulgarian counter-attack.

### Turons Attack Heavily.

Petrograd, Oct 17.—The Turons have made counter-attacks heavily to the southeast of Lemberg; it is announced, after a bombardment of great intensity.

### Germans Win in Galicia.

Berlin, Oct 17.—Russia suffered another heavy defeat in Galicia, it is announced. Repeated Russian attacks were repulsed by the Austro-Germans who captured trenches on a front of one and one-fourth miles, taking nineteen hundred prisoners.

Allied attacks at Gondcourt on the Somme were broken down under German fire.

### Trieste Is Goal of Italy.

London, Oct 17.—The only offensive movements of consequence under way today were those of the Italians, aimed at Trieste, and of the Teutonic forces in Transylvania, directed against Romanians. The statement made yesterday that the Italian offensive was undertaken to provide some relief for the hard pressed Rumanian forces was borne out in semi-official dispatches received from Rome today.

In this way the allies hope to draw off sufficient forces from the Teutonic attack in Transylvania to give the Romanians a breathing space in which to reorganize their forces.

The Italians, according to dispatches from the front by way of Paris received here today, have caused a loss of 15,000 men to the Austrians in the most recent operations. They have advanced their lines on the Carso

## STEAMSHIP STEPHANO AND RESCUED PASSENGERS AT THE NEWPORT U.S. NAVAL HOSPITAL

Some eighty passengers were rescued from the British steamship Stephano, bound from St John's to New York, Sunday evening before she was torpedoed off the Nantucket lightship, which is forty-six miles from the nearest American territory, the island of Nantucket, by the German submarine U-53. They were had been taken aboard the destroyer Gleeson where they were

recovered at the naval hospital. The Stephano was a small vessel of 2,148 tons. That at the same hour went varying account. But they agree that she was fired across the bows of the vessel while most of the passengers were at dinner. Then the captain was notified to abandon ship and passengers. After these had been taken aboard the destroyer Gleeson where they were

BLOODY WARFARE

(By Associated Press.)

Amsterdam, Oct 17.—Via London: The Norddeutsche Allgemeine Zeitung, a semi-official newspaper of Berlin, today published a full page in large type, signed under names of Chancellor von Bethmann-Hollweg and Rudolph Hayen, president of the German Imperial court, in behalf of the committee formed under the presidency of Crown Prince Frederick William for the collection of gold ornaments to be melted into coin. The appeal says:

"There's a chance for some girl to get a 'true and lasting happiness' out of melting and not more than in 1914 according to figures in the office of State Auditor Hayen, compiled from returns from counties to the tax commission board."

The report also gives the total amount valued at 425,000,000. In 1914 there were 42,500 persons, valued at \$1,000,000. It is thought that this will make a trifle less than

## WILSON'S EFFORTS TO AID STARVING POLAND, FAIL

TO KEEP OPEN IN SERVICE

St Louis, Mo., Oct 17.—Efforts of the Red Cross to procure an armistice in the interests of Poland were unsuccessful. A military report of the joint commission of the Polish government and the German government submitted to the League of Nations, however, recommended the opening of negotiations for an armistice.

The report also gave the total amount valued at 425,000,000. In 1914 there were 42,500 persons, valued at \$1,000,000. It is thought that this will make a trifle less than

## DELINQUENTS WILL FORFEIT ALL RIGHTS

THOSE WHO FAILED TO REGISTER  
AND WHO DID NOT VOTE IN  
1914 ARE BARRED

Persons who did not vote in the general election in 1914 and who did not register during any of the periods of registration in the summer cannot now be allowed to register. In that period, beginning twenty days before the coming general election and ending ten days before it is held in an opinion of the attorney-general relative to the administration of the registration law. This period is evidently for those who were not qualified voters during the previous registration period but would otherwise qualify previous to the coming election.

The opinion is rendered in County Registrar J. B. Craven of this county. It holds that all those persons who voted in 1914 were presumably registered, and if such a voter had removed from the precinct in which he lived, he should have been given a transfer. So far as registration is concerned, the period of ten days before the general election is simply for those who became of voting age previous to the general election, but since the two previous registration periods, and others who were qualified and did not register or receive registration certificates before that date, cannot register at the coming election.

In this way the allies hope to draw off sufficient forces from the Teutonic attack in Transylvania to give the Romanians a breathing space in which to reorganize their forces.

The Italians, according to dispatches from the front by way of Paris received here today, have caused a loss of 15,000 men to the Austrians in the most recent operations. They have advanced their lines on the Carso
